

# Click and Drag Puzzles

## **Features:**

- There are over 40 different puzzles to master.
- 4 different categories and 3 different difficulty levels.
- Practice important academic skills while practicing essential mouse manipulation skills.
- Level Progression – Students unlock new levels after successfully completing a puzzle. (Subscription Website Only)
- Students' progress is saved and recorded. (Subscription Website Only)

## **Grade Levels:**

Appropriate for Grades K – 2.

## **Brief Description:**

Click and Drag Puzzles is an excellent game to help practice and develop mouse manipulation skills. Students use the mouse to drag puzzle pieces around the game board to solve the puzzles. Students will also practice academic skills such as matching, math, and letter identification skills.

## **Lesson Ideas:**

Introduction to Click and Drag Puzzles, Clicking and Dragging Practice

## **How To Play:**

Students begin by choosing a puzzle to solve. Then students practice using the mouse to click and drag objects to specific locations on the game board to complete the puzzle. Each category has a different variety of puzzle. Solving a puzzle may involve matching shapes, words, letters, numbers, or creating pictures. Students may change the difficulty level to make the puzzles more challenging.

## **Connection to Standards**

State Standards:

- State Goal 6 A. Demonstrate knowledge and use of numbers and their representations in a broad range of theoretical and practical settings.
- State Goal 9 A. Demonstrate and apply geometric concepts involving points, lines, planes and space.

NETS Technology Standards:
