

# Type-Type Revolution: Picture Edition

## **Features:**

- Six different challenging levels.
- A seventh customizable level – students may type in spelling words or vocabulary words and practice typing them.
- Students have fun revealing hidden pictures while typing.
- Student Record Keeping – Students scores and progress are recorded online **(Subscription Website Only)**
- Teacher created spelling lists – Teachers can enter own their own spelling list to appear for students to practice. **(Subscription Website Only)**

## **Grade Levels:**

Appropriate for Grades 2-6.

## **Brief Description:**

In this activity students must type the words that appear on the screen to reveal a hidden picture. Students can choose from simple words to full sentences to practice their typing skills. As students complete one picture, a new one appears and the game continues.

## **Lesson Ideas:**

Introduction to TTR: Picture Edition, Keyboarding Review

## **How To Play:**

First students must choose a lesson. (Spelling Practice is a customizable lesson where the student or teacher can enter in up to 18 spelling words to practice typing.) The other lessons contain basic words to practice typing. Once a lesson is chosen, the student must then choose a category of picture. After the game starts, as the student types letters correctly, more of the hidden picture is revealed. If a letter is typed incorrectly, the picture becomes more hidden. The goal is to unlock as many pictures as possible in the time limit. The student is then taken to a summary screen where they can see their results and look at the pictures they have unlocked.

## **Connection to Standards**

State Standards:

- State Goal 3A. Use correct grammar, spelling, punctuation, capitalization and structure.

NETS Technology Standards:

- Demonstrate the ability to navigate in virtual environments such as electronic books, simulation software, and Web sites. (6)
- Demonstrate the safe and cooperative use of technology. (5)
