

Type-Type Revolution: Training

Features:

- Over forty different levels to help students develop their ability to use a keyboard.
- Student Progression – Students unlock new levels as they master early levels.
- Over 10 different activities for students to play while they are typing.
- Student Record Keeping – Students scores and progress are recorded online **(Subscription Website Only)**
- Teacher Assigned Levels for differentiated practice – Teachers can control and assign levels to different students **(Subscription Website Only)**

Grade Levels:

Appropriate for Grades 1-6.

Brief Description:

This game is designed to help students continue to develop their typing skills. Students begin the game as a stuntman, but before they can perform any stunts, they must perform training exercises. Students choose a typing lesson and a type of training to begin. Students unlock new lessons and activities as they progress through the game. The game offers a wide range of difficulty levels for the beginning and advanced typist.

Lesson Ideas:

Introduction to TTR: Training, Keyboarding Review

How To Play:

There are five different difficulty levels in TTR: Training and each difficulty level has seven lessons. Students must pick a lesson and then a type of training to begin. Before each level the requirements to pass the level are displayed. In some lessons the student's accuracy is assessed, in other levels their accuracy and speed are assessed to determine if they are ready to progress to the next level. At the end of each level, a summary screen is displayed to inform the student if they still need to practice that level or if a new level has been unlocked. While students are typing, their character will be performing various exercises. After enough training, the character will be allowed to perform various stunts. When performing a stunt the student must type a certain number of letters correctly in order to build the character's courage. When the courage meter is full, the character will perform the stunt. New stunts are unlocked through continued training. There are six different training exercises and four different stunts to unlock. These difficulty levels are designed to challenge students from grades 1 – 6 and beyond. After completing a difficulty level, the student has the option to print a certificate to display their mastery of that level. See the chart below for lesson charts.
